IT PAYS TO ADVERTISE

VOLUME 15, No. 48 — CAMPBELL, SANTA CLARA COUNTY, CALIFORNIA — FRIDAY, JUNE 10, 1910

A Few "Becauses"

Why we ask for and expect your grocery trade.

BECAUSE as far as it is possible to determine our stock takes in all the good kinds, and leaves the others out.

BECAUSE if you are particular about eatables, our store will appeal to you.

BECAUSE we play the game of business fair and square. We make right any mistakes that we may make as soon as we hear of them.

BECAUSE we try awfully hard to "get there on time." We appreciate the inconvenience of waiting for goods to be delivered.

BECAUSE In spite of all these advantages your dollar is as large here as anywhere, often larger.

Try and prove.

Local and Personal

Claude Butterick of Oakland was home over Sunday.

There will be no services at the Methodist church next Sunday evening.

The W. C. T. U. will meet with Mrs. Farley on Wednesday, June 15th at 2:30 o'clock.

Miss Gertrude Cook, who is teaching at San Mateo, visited her parents over Sunday.

Miss Miller, of San Jose, has rented the Chas. Gilman cottage on South Second street.

Mrs. Ivy Frost, of Hollister, is here for a few days visiting her mother, Mrs. O'Connor.

Carpenter work by day or hour, odd jobs. Shop at Miracle's lumber yard. A. W. Adams.

BORN—a baby girl to Mr. and Mrs. Joe Castro, on the Santa Clara-Los Gatos road today, Friday.

Miss Cora Rodeck is at home again after a year's work teaching in the schools at Copperopolis.

For Sale—Thoroughbred Rhode Island Red chicks, 6 and 8 weeks old. Apply, J. F. Wilson, First st., Campbell.

Miss Lela Oliver came home Wednesday from Cambria, San Luis Obispo county, where she has been teaching.

Don't fail to hear Dr. Thomas, the Anti-Saloon League speaker, at the Congregational church next Sunday evening.

Miss Minnie Dawson having completed her year's work in the Paso Robles schools, returned to Campbell last Saturday.

Mrs. E. C. Hurlbert and children, Elmarie and Elgin, came over from Pacific Grove last Wednesday for a few days' visit.

Miss Tillie Hayes left Sunday for Winters, Yolo County, where she will substitute in the Commercial Department of the Winters High School.

The meeting of the Improvement Club for last Monday evening did not materialize. The medicine show must have been too great an attraction.

Rev. James C. Perkins, for twenty-five years a missionary in India, occupied the pulpit of the Congregational church last Sunday morning. In the evening he spoke at the Methodist church.

Rev. Atkinson preached at the Congregational church in San Jose last Sunday morning. The pastor, Dr. Wm. T. Patchell, has been in the hospital for some time where he suffered a very painful operation.

Rev. G. E. Atkinson performed a wedding ceremony at the Vendome Hotel last Wednesday, Mr. John Gill of West Berkeley, and Miss Sarah F. Caig of Oakland being the interested parties. Both were friends of Mr. Atkinson.

Mrs. Simeon Irwin, Mrs. Arthur Bassett, Mrs. Robert Hall and little son Lawrence, of Los Gatos, were guests of Mrs. L. C. Dick last Tuesday. Baby Lawrence won first prize as the prettiest baby at the Los Gatos May Day Festival one year ago.

Essays upon "The value of Total Abstinence to a Life" and "What's the Harm in a Glass of Wine" and "The Effects of Tobacco," will be read next Monday evening, June 13. Ice cream and cake 10 cents. Come and bring a friend.

FOR SALE—A good town lot, 50 x 140 feet, 12 prune trees. Enquire at Press office.

Rooms For Rent—furnished or unfurnished. Apply to Mrs. Cook, Harrison Ave.

Kept The King At Home

"For the past year we have kept the King of all laxatives—Dr. King's New Life Pills—in our home and they have proved a blessing to all our family," writes Paul Mathulka, of Buffalo, N. Y. Easy, but sure remedy for all Stomach, Liver and Kidney troubles. Only 25c at all Druggists.

Chinese Children Entertain

Miss Carrie G. Davis, Superintendent of the Oriental Home for Chinese in Berkeley, visited Campbell this week with her company of Chinese children. An entertainment was given at the Methodist church Wednesday afternoon under the auspices of the Missionary Society. They were also present at the prayer meeting in the evening.

A Woman's Great Idea

is how to make herself attractive. But, without health, it is hard for her to be lovely in face, form or temper. A weak, sickly woman will be nervous and irritable. Constipation and Kidney poisons show in pimples, blotches, skin eruptions and a wretched complexion. But Electric Bitters always prove a godsend to women who want health, beauty and friends. They regulate Stomach, Liver and Kidneys, purify the blood; give strong nerves, bright eyes, pure breath, smooth, velvety skin, lovely complexion, good health. Try them. 50c. at all Druggists.

Editors Have Joy Ride

County Editorial Association Take Special Car and See Sights of the Valley

The climax of a series of most delightful outings was reached last Monday when Walter A. Clark, editor of the Los Altos Star and General Agent Los Altos Land Company, took the members of the County Editorial Association and their wives for a "joy ride" over the lines of the Peninsular Railway Company. The Company provided one of its finest coaches and General Manager Chapin personally attended to the comfort and convenience of the guests.

The editors and their wives met at the Market Street depot at 10 o'clock, and after boarding the special and reaching the Court House, the editors in a body visited the Board of Supervisors and requested of the Board that the delinquent tax list be published in the townships in which each piece of property delinquent is located, instead of publishing the whole thing in some one San Jose paper. The purpose and justice of this method will be taken up in our editorial column later.

The party then proceeded to Loyola, the new site of the Santa Clara College. Here they were met by Father Malone and escorted over the field. The College has an elegant piece of property of some 675 acres in the foothills, overlooking the valley and bay. The site for the buildings is 600x1800 feet facing the railway lines. The party again boarded the car and went on to Los Altos where a business meeting of the Association was held in the extensive office building of the Los Altos Land Co. President P. Milton Smith presided. After roll call the following resolution was introduced by Mr. Smith and passed:

"Resolved, by the Santa Clara County Editorial Association in session at Los Altos the sixth day of June, 1910, that it is the sense of this association that one of the greatest benefits to a county and its people is good roads, and that every movement that tends toward the improvement of public roads and highways in Santa Clara County shall have the earnest support and unqualified endorsement of the Santa Clara County Editorial Association, and that in this connection and to this end we, the members of this association, do endorse and commend the efforts now being put forth by the Board of Supervisors of this county in the way of improving our public roads and highways; and that every such effort on the part of the Board of Supervisors of our county shall have our earnest support and co-operation in every way in which it may be possible for us to so approve and co-operate."

The Secretary, Miss B. Downing, was instructed to send a copy of the resolution to each newspaper in the county for publication. H. W. Simkins of Palo Alto next introduced a resolution asking that the association take up the matter of inter-county licenses for the sale of merchandise, etc. As the time was limited, the matter was laid over until the next regular meeting and adjournment was then taken.

The party then went to Mayfield, Palo Alto, Ravenswood and thence to Stanford University without stops. As it was way past the noon hour, a rapid run was made to Nippon Muro, in the foothills near Los Gatos, where a sumptuous dinner was awaiting the party. This little resort is worthy of a special notice, and at a later date we will tell you more about it.

Mr. Morris, the proprietor, knows how to entertain, and the elegant menu soon satisfied the gastronomic disturbance the party was now feeling. The tables were very tastifully decorated with calliopsis, and an especial menu card was presented to each guest as a souvenir of the occasion.

President Smith acted as toastmaster and his always pleasing dry wit made good sandwich matter for the excellent speeches made as follows: W. H. B. Trantham, "Beauties of the Valley"; Mrs. C. A. Miller, "Extension of Electric Lines"; H. F. Emlay, "The Rose Carnival"; H. W. Simkins, "Reminiscences"; Miss Bernice Downing, "The Ladies"; F. E. Chapin, "Peninsular Railway"; A. B. Smith, "Telling the Truth"; Walter A. Clark (father of Los Altos), "County Co-operation"; C. J. Owen, "The Press"; W. P. Lyon, "Business End of a Newspaper"; L. P. Hathaway, "The Editorial Association." Mr. Hathaway took occasion to say goodby to the Association, as he has given up his work at Palo Alto and goes south to enter a new line of work. Much regret is experienced in the organization at the loss of Mr. Hathaway as he has long been one of its most useful, and as well most pleasing members.

At the close of the speechfest three cheers were given Messrs. Clark and Chapin for the good time they were affording the party.

The next place to be visited was Congress Springs, where the party spent some time strolling along the brookside among the trees.

At Los Gatos a stop was made while the party visited the offices of the News and the Mail and also the orange grove of A. B. Smith, the mail editor. We wonder if the delicious quality of that fruit hasn't something to do with the snap and flavor which Brother Smith puts into his paper.

On the home run for San Jose the car passed through Campbell at 5:30 p. m. and stopped to let off the Press editor and family.

Following were the members of the party: C. A. Miller and wife, Mountain View Register; W. F. Blake, Gilroy Advocate; W. K. Roberts, Sunnyvale Standard; H. W. Simkins, Palo Alto Times; L. C. Dick and wife, Campbell Interurban Press; W. H. B. Trantham and wife, Los Gatos News; C. J. Owens, San Jose Times; W. P. Lyon, San Jose Mercury; A. B. Smith and wife, Los Gatos Mail; P. Milton Smith and wife, Palo Alto Citizen; L. C. McKenney and wife, Gilroy Gazette; G. K. Estes, Morgan Hill Times; Miss Bernice Downing, Santa Clara Journal; Fred Ostermeyer, Mayfield News; W. A. Clark, Los Altos Star and General Agent Los Altos Land Company; F. E. Chapin, General Manager Peninsular Railway Company; H. F. Emlay, Secretary Santa Clara County Rose Carnival; Mrs. C. W. Dibble, Santa Clara; L. P. Hathaway and wife, Palo Alto; Mrs. L. E. Clark, Mrs. E. F. Porter and Miss Ada Carr, and C. E. Macrum and wife, Mountain View.

This delightful day's outing was an eye-opener to the writer in several ways, and in next week's issue we will devote some space to Los Altos and that part of the valley.

Congregational Church

Next Sunday is our Annual Children's Day. This will be at 11 a. m. taking the place of morning Church and the Sunday school hour. The usual exercises by the children with special music, etc will make up the hour. Mrs. Chapin will speak on "Child Life in India," and the Pastor will give an illustrated talk on "Lanterns." Come and bring the children.

The Epworth League will meet with the Christian Endeavor Society next Sunday evening. Mrs. J. F. Wilson will lead the meeting. The topic will be "Truth that Enlightens and Purifies." Eph. 4:17-24; Prov. 2:10-22. (Christian Education Day.)

Too Late

It was announced in the Press several months ago that another physician was expected to succeed Dr. W. G. Minor and take up his practice here, but not until last week did he—Dr. Munroe, of Lake County—put in appearance. After remaining several days and making partial arrangements for an office and residence at Mrs. Swope's cottage on Central Avenue, he learned that Dr. Blanchard had located here and concluded that the field would not warrant the presence of another physician and accordingly packed his grip and said goodby. Dr. Munroe was accompanied by his wife and small boy.

Attention Maineites

The Santa Clara County Maine Association will hold their annual Picnic at Congress Springs, Saratoga, June 30, 1910. All natives of Maine and their immediate families are cordially invited to be present, and enjoy the day. Basket lunch—coffee only furnished. Car lines will give reduced rates.

A New Auto

A fine new Hudson machine was this week received by Dr. T. L. Blanchard to be used in his practice here. With this means of quickly reaching his patients, and many other advantages in his favor, there is no question about Dr. Blanchard's success in this community.

Entertainment at the Coffee Club

The $5.00 and $3.00 prizes offered by the Woman's Christian Temperance Union in the interest of Scientific Temperance Instruction will be awarded next Monday evening at the Coffee Club, June 13th.

The essays will be read, interspersed with vocal and instrumental music. Ice cream and cake, 10 cents. All are cordially invited.

A Necessary Delay

Owing to a great amount of Commencement printing which had to be out this week, we were unable to get the Press out on Friday as usual. We hope that such irregularity will not occur very often.

An Expression of Thanks

We wish to express our heart felt thanks and appreciation to our friends and neighbors for their great kindness and words of sympathy during our recent sore bereavement.

Mr. and Mrs. J. D. Irwin,
Mrs. Mabel Henry and sisters.

Campbell - - - California

NEWS OF WEEK FROM ALL THE COAST STATES

Occurrences Along the Pacific Slope Presented in Compendious Array.

Passing Events Among Your Neighbors Briefly Told in Short, Newsy Paragraphs.

Oakland.—June proved its popularity as a month for marriages on the first day, 21 marriage licenses being issued.

Vallejo.—As the result of injuries sustained in an accident a year ago, T. J. Moran, city plumbing inspector and a well known resident, died last week.

Petaluma.—This city is preparing for one of the grandest Fourth of July celebrations in its history, and a substantial fund has been subscribed for the celebration.

San Leandro.—As a feature of the Cherry Festival an 18-mile Marathon race has been arranged between some of the best distance men on the Coast, to be run June 12th.

Spokane.—Imprisonment for life in the State penitentiary at Walla Walla was the sentence imposed upon George Pepoon at Colville. Pepoon was found guilty of poisoning his wife, Mrs. Edith Pepoon.

Stockton.—The owners and directors of the California State League met here last week and practically decided to reorganize by forming a four-team league to include Oakland, San Jose, Fresno and Stockton.

Oakland.—George F. Duenwald insisted that his wife, Louise C., wear cheap dresses in order that she might not appear attractive to other men, and his jealousy resulted in her securing an interlocutory decree of divorce.

Los Angeles.—A 25-round contest between Tommy Burns and Sam Langford will take place at Vernon the afternoon of Labor Day. Burns is to receive $15,000, win, lose or draw, and Langford is to get $10,000 on the same terms, each fighter receiving one-fourth interest in the moving pictures in addition.

Ogden, Utah.—Four hundred kegs of powder were prematurely discharged in the quarry of the Union Portland Cement Company, near the "Devil's Slide" in Weber canyon. Seventeen laborers were killed in the explosion. They include the foreman, Hugh McGuire, seven Italians, seven Hungarians and two Japanese.

Oakland.—State Controller A. B. Nye has decided that the appropriation set aside by the Legislature for holding a fair in Oakland can only be used in Oakland and that the project of the Chamber of Commerce to hold a "stock show" at the Emeryville track, using the State appropriation for that purpose would be distinctly illegal.

Spokane.—In an address before the Republican County Central Committee Governor F. M. Hay said: "A man who will beat his wife is so far behind the dark ages I feel we should do some thing to enlighten him and bring him down to the whipping post at least. I hope to see the next Legislature establish a whipping post for wife-beaters."

Willows.—The largest contract for the removal of dirt in the northern part of the State has been let by the Sacramento Irrigation Company. The work will extend from the northern line of Glenn county to the middle of Colusa county, a distance of 30 miles. The contract calls for the removal of more than 1,500,000 yards of dirt and for the construction of laterals and a drainage system.

Vancouver, B. C.—A phenomenally heavy influx of Chinese into Canada through Port Vancouver—a rush which is netting the Dominion and Provincial Governments an income of $750,000 per annum—was explained by receipt of information from Hongkong that a report is being circulated among the Chinese that Canada intended shortly to increase the head tax on entry of Chinese from $500 to $1000.

Husum, Wash.—One of the successful tillers of the soil and orchardists of central Klickitat county is Mrs. H. A. Richardson, aged 66. Eight years ago she homesteaded a quarter of a section northeast of Goldendale, and today has a young bearing orchard, her only helper when clearing the land being an old horse. Mrs. Richardson finds a ready market for her fruit, receiving the highest price paid for the choice varieties of apples.

BIG GRAIN CROP ASSURED IN SAN JOAQUIN COUNTY

Farmers Expect to Reap Handsome Profit From Barley Harvest.

Stockton.—The harvesting of barley has been commenced throughout San Joaquin county and the farmers who have sacked the first grain declare that the yield this year will exceed that of any season in many years. Experts employed by the grain men to visit the various sections also report the best crop known in a long time, and many of the large growers will reap fortunes this year, even should the price decline to 85 cents, but it is believed that fully $1 will be secured for most of the crop.

Moreing & Woods have commenced cutting 3000 acres on the Byron tract and the yield is averaging 35 sacks to the acre. About 25 harvesters are working between Tracy and Crow's Landing and the returns are large. While the harvesting has not been commenced on the islands, as the grain remains green longer there than on the upland, several of the farmers say they will get from 35 to 45 sacks of barley to the acre, a very heavy crop. But little of the crop will be sold at the present figures, as better prices are anticipated.

JURIST LOOKS KINDLY ON JEFFRIES-JOHNSON MATCH

Says He is Envious of Man Leaving Bride to See the Combat.

New York.—Mrs. Gussie Adler of Brooklyn had her husband, Charles Adler, before Magistrate Nash in the Flatbush court on a charge of abandonment. The couple were married only four months ago. The young wife told the magistrate that although her husband had paid the rent in advance and otherwise provided for her, she discovered he was planning to go to San Francisco to see the fight between Jeffries and Johnson on July 4th. In dismissing the complaint Magistrate Nash said: "Any man has a right to leave his wife for a few weeks to see a big fight provided he has left her with ample support. I'd go myself if could."

Crops Damaged by Cold Weather.

Chicago.—A heavy hail and snow storm struck Chicago unheralded by the weather bureau a few days ago. The mercury huddled about the 47-degree mark. Thirteen stations in the corn and wheat belt of Minnesota and North Dakota reported freezing temperature, while a snowstorm and freezing weather were on tap in Canada. The cold weather may damage crops. Farmers in Butler, Hamilton, Clermont and Brown counties, Ohio, as well as those in Southern Indiana and Northern Kentucky, report losses of $250,000 from hailstones.

Will End Smoke Nuisance.

Redding.—Following the order of the government that a smoke consuming device must be erected and maintained at the Delamar smelter of the Bully Hill Mining Company, it is probable that the smelter will close the first of the month and that the ore will be sent to the smelters at Coram and Kennett. At each of the latter places bag houses for the consumption of the fumes are being built under an agreement recently entered into between the company and the Shasta County Farmers' Protective Association.

Automobile Stage Burned.

Redding.—An automobile in the stage service between Weaverville and Redding was destroyed by fire near Whiskytown, entailing a loss of $4,1000, covered by insurance. While Walter Day, the chauffeur, was repairing the machine, a spark ignited the oil and the loss of the vehicle resulted.

Redding Protests Against Sewage.

Redding.—Complaint is to be made to the State Board of Health against the dumping of sewage into the river by the many mining towns above this city, along the Sacramento river. Dunsmuir, Kennett, Coram, Castella, Lamoine and others dump their sewage directly into the river.

Robber Taken From His Bride.

Spokane.—Glenn Bouton, a clerk in the Spokane postoffice, was arrested as he was about to board a Northern Pacific train with his bride. He is charged with the theft of a registered letter containing $2,000. Bouton confessed and turned over $1,000 to the inspectors.

Steamer Held in Ice.

Nome, Alaska.—The wooden steamer Corwin which sailed from Seattle May 10 with a large passenger list, is held fast in the ice 15 miles from Nome. The ice is the heaviest known in 10 years at this season.

Railroads Submit to Dictum of Taft; No Rate Increase

Washington.—The Senate passed the Administration railroad bill after it had been under consideration for more than 12 weeks. Practically no other business except appropriation bills was considered in that long period. Only 12 votes, all by Democrats, were recorded against the bill.

The practical unanimity with which the measure passed was due to radical changes made in the measure from the form in which it was drafted by Attorney-General Wickersham following numerous conferences at the White House on the subject of amending inter-state commerce laws. All the "insurgents" who opposed many features of the original bill, voted for it.

Through the elimination of pooling and merger sections and by reason of the adoption of many amendments in the interests of shippers, the progressive Republicans claim a signal victory, and most of the Democrats expressed themselves as favorable to a large portion of the measure. Had it not been for the retention of the sections to create a court of commerce, it is likely that the vote for the bill would have been unanimous.

The "court of commerce" will be created for the consideration exclusively of appeals from orders of the Interstate Commerce Commission, and will consist of five Judges to be appointed by the President. Briefly the bill gives the Interstate Commerce Commission full power to regulate long and short haul rates for protection of water competition.

Permits shippers to designate routes.

Places telegraph and telephone companies under jurisdiction of the Interstate Commerce Commission.

Regulates issuance of Federal injunctions that might suspend State laws.

Gives the Interstate Commerce Commission more power in the determination of the reasonableness of rates.

Washington.—President Taft ordered Attorney-General Wickersham to bring suit in the Federal Court to enjoin the 24 railroads in the Western Traffic Association from advancing freight rates. Judge Dyer of the United States Circuit Court at Hannibal, Mo., has issued a temporary injunction restraining the 23 railroads in the Western Traffic Association from advancing rates.

Following the action of President Taft, most of the big railroads ordered all equipment and improvement contracts canceled, inaugurating a policy of retaliation against the Government.

Eastern roads openly declared war on the Government, defying Attorney-General Wickershaml to enforce the injunction against higher rates.

Hysteria reigned in Wall street, the entire market breaking. All stocks slumped, many reaching a low level. General panic was predicted.

Slason Thompson, secretary of the Railroad Publicity Bureau in Chicago, painted a picture of ruin for the railroads, saying that $300,000,000 of prospective improvements must stop.

On Monday, however, a complete agreement between the Government and the recently enjoined railroads of the Western Trunk Line Association was reached at a White House conference which lasted more than four hours. The railroads agree to withdraw all rate increases filed to be effective on or after June 1st and agreed to file no more increases until the bill in Congress that gives the Interstate Commerce Commission power to investigate and suspend increases becomes a law and is in operation.

President Taft thereupon stated that the Administration's purpose in bringing the injunction suit had been accomplished and the suit would be discontinued. The discontinuance will not be entered, however, until after the new railroad law is signed. The belief was expressed that all the other railroads of the country that have filed increased rates or have had such a plan under consideration, will abide by the agreement reached with the 24 railroads named as defendants in the Hannibal suit.

Americans Will Be a Race of Loons in 250 Years

Boston.—"If the increase in insanity continues at its present rate, we shall all be insane 250 years from now," said Dr. J. H. Kellogg, professor of surgical pathology, addressing the College ofPhysicians and Surgeons.

"Physical degeneracy and chronic diseases are increasing," continued Dr. Kellogg. "Heart disease has increased 135 per cent in 30 years. Kidney disease has increased 167 per cent in Massachusetts alone. Insanity has increased 100 per cent in the last 50 years. There are 34,000 idiots and lunatics to every million people in the world. It is due largely to physical degeneracy originating from our manner of living."

Bonus for Information Leading to Finding of Servant

Detroit, Mich.—Abandoning hope after six weeks' efforts to secure a housemaid by the usual method, J. Segwalt, a Detroit man, has adopted the novel plan of offering a bonus for information leading to such an acquisition. He has inserted the following advertisement in local papers: "Ten dollars in gold will be rewarded the party giving information which will lead to the discovery and employment of a strong girl or woman capable of doing ordinary housework in a small family; will pay $5 per week; good home."

Will Retreat to Tall Timber to Reach Age of 150

Truckee.—Stewart McKay, 72 years old, 6 feet 2 inches tall, a pioneer and a business man, believes he can live to be 150. He has planned to go back to nature in the hope of living to be seven score and ten. McKay will sell his hotel and home here and build a cabin in the woods, where he expects to live for another 75 years. McKay said he would adopt a seminude attire and live on a plain diet of potatoes, stale bread and hot water. He has not eaten meat or fish for 25 years.

To Manufacture Aeroplanes.

Auburn.—Gerald Geraldson, prominent fruit grower, who recently patented a model for an aeroplane, has completed the organization of a company to construct his machines and has closed a deal for the erection of shops at Roseville, where the aeroplanes are to be built. Geraldson said that his machine would carry freight as well as passengers. Geraldson declared that aeroplanes would become as popular within a few years as automobiles.

United Railway's Capital Increased.

Trenton, N. J.—The United Railway Investment Company, which controls the United Railroads of San Francisco, with more than 250 miles of trolley lines, filed an amended certificate here increasing its capital stock from $50,000,000 to $56,000,000.

Sending Aid to Hindu Agitators.

Vancouver, B. C.—The Hindoo population of British Columbia contributes liberally to the funds of the leaders of the anti-British agitation in India, according to secret service agents employed by the India Office in London. As much as $2000 was raised in Vancouver on a recent Sunday afternoon on a direct appeal to the Hindoos employed in and about this city for funds with which to buy rifles to aid the plot to overthrow English rule in India.

English Bookies Welched.

London.—A number of Americans were swindled at the Derby by "welching" bookmakers. Chief among these was A. G. Vanderbilt, whose "bookie" ran away with his money after the last race on which most of the losses occurred.

RAILROADS REPORT GREAT INCREASE IN COLONIZATION

Small Farms Prove Attraction to Homeseekers From Eastern States.

San Francisco.—Reports received by the California Development Board show great activity in all parts of the State in immigration and colonization. Railroads report greatly increased arrivals of colonists during the past two months. Large tracts of land all through Sacramento and San Joaquin valleys have been divided into small tracts and offered to colonists at such terms as induce settlement.

Increased activity is noted in manufacturing and industrial development throughout the interior, and electric construction as well as railroad extension is especially noticeable. Buldiing activity is increasing all over the State, indicating rapidly increasing population.

Crop reports do not bear out early promise, especially in the early fruits. A windstorm prevailing throughout the northern part of the State early in May cut down the cherry and apricot crop. Otherwise there is every indication of good crops. Hay and grain will be below normal, but late fruits, especially Bartlett pears and grapes, give excellent promise. First car lot shipments of apricots started to the eastern market during the month. Berries are reported as being especially fine. Increased activity is noted in development organizations, with a general broadening of work.

FLIES FORTY-TWO MILES IN 90 MINUTES WITHOUT STOP

English Aviator Crosses Channel to France and Back Again.

Dover, England.—Charles Stewart Rolls, Captain in the London section of the army motor reserve, driving a Wright biplane, vindicated the Anglo-Saxon aeronautics by crossing the English channel twice without alighting. He made the round trip between Dover and Calais in 90 minutes.

While two Frenchmen, Louis Blieriot and Count de Lesseps have crossed the channel in an aeroplane, it remained for an Englishman in an American machine to perform the double feat. The distance across the two points is 21 miles, so that this over-water flight of 42 miles without a stop establishes a new record.

Los Angeles Cuts Expenses.

Los Angeles.—In view of the refusal of a New York bond syndicate to purchase more Los Angeles aqueduct bonds at the present time, operating expenses will be reduced to $125,000 a month until December 1, when $520,000 will be due from the bond syndicate. Orders have been issued for a further reduction of the working force on the aqueduct to bring monthly expenses within the new figure.

Hot Spell Hurts Raisin Crop.

Fresno.—After a canvass of the raisin districts, John P. Clark, a prominent grower, announced that the record-breaking hot spell of the last of May has caused a loss of at least 10 per cent of the crop. In some districts the damage is put as high as 25 per cent. Peaches and apricots have also suffered, the young fruit dying and dropping from the trees.

Voters Must Decide.

Berkeley.—The Board of Education has sidestepped the kindergarten question, which the mothers' clubs and others have endorsed, and has by resolution asked the city council to submit the matter to the people of this city without recommendation. The board agreed that if the residents of this city vote the money the schools will be established.

New York-Washington Airship Race.

Washington.—The interest of the National Capital in the agitation for long-distance flights through the air has crystallized into a definite movement for an airship race between New York and Washington. The Fourth of July has been tentatively set as the date for the contest, and it is proposed to offer a prize of $20,000.

To Fly Over Lake Ontario.

Rochester, N. Y.—Dr. W. M. Green, an aviator, will attempt on June 21st to fly from Rochester across Lake Ontario to Toronto. He will use a biplane of his own design and manufacture. The distance is about eighty-six miles. Fast boats will relay across the lake under the aviator.

To Care For Yosemite.

Washington.—The House agreed to appropriate $77,500 for the maintenance and improvement of Yosemite national park, including $15,000 for sprinkling the road between El Portal and the hotel.

WORLD'S NEWS PRESENTED IN BRIEF ITEMS

Events of Both Hemispheres Compiled in Pithy Form For Busy Readers

Here You Will Find a Resume of Happenings in Almost Every Part of the Earth.

Shanghai.—Chinese warships with troops have been dispatched to Nanking in anticipation of a native outbreak against foreigners. The foreigners have been warned of their danger.

Washington. — President Taft announced that during his administration he would not lend his approval to legislation designed to secure Government aid to specific railroad interests in Alaska.

Fort Worth, Texas.—After a suspension of coal mining in the bituminous fields of Texas for two months 5000 miners returned to work last week. The mine owners granted the demands of their miners.

New York.—H. R. Hyon, who is said to be the president and vice-president of several banks and corporations in Minneapolis, is being held on a charge of smuggling two pearl necklaces, a brooch and gold watch.

Washington.—The city of Omaha, Neb., will be required to purchase the water works system of the Omaha Water Works Company for $6,263,295.49, under a decision of the Supreme Court of the United States announced today.

London.—Dr. Elizabeth Blackwell, widely known in the practice of medicine both in England, where she was born, and in the United States, where she practiced several years, is dead at her home at Hastings. She was born at Bristol, February 3, 1821.

New York.—The New York Times and the Chicago Evening Post offer a prize of $25,000 for an aeroplane flight between New York and Chicago. The New York World and the St. Louis Post-Dispatch will give $30,000 for a flight between New York and St. Louis.

New York.—Gertrude Hoffman, the Salome dancer, and then some, sailed for Europe with a contract for $136,000 for the next year. "Where is this contract?" asked a reporter. "In the safest place that a woman knows." The reporter glanced toward her shoes. "You've guessed," laughed Salome; it's in my stocking."

Manti, Utah.—Donald Kilpack, ten years of age, and Claire Reed, also ten, were swimming in a reservoir when Reed got into deep water and sank. Donald brought him up and struggled with him to shallow water. The Reed boy walked out, but Donald, spent with his efforts, was unable to sustain himself and was drowned.

Washington. — Justice Harlan of the Supreme Court of the United States a few days ago celebrated his 77th birthday anniversary. Justice Harlan is dean of the bench, having been a judge for nearly 33 years. If he lives two more years he will have served longer than any man who ever sat on the bench. He has no thought of retiring.

Cheyenne, Wyo.—Soldiers from Fort D. A. Russell and a squad of police fought a pitched battle with revolvers in the streets in which three soldiers were wounded. The police were forced to retreat to the station house, where they were besieged by the soldiers until relieved by a detail of colored soldiers from the fort. The wounded soldiers were hurried away by their freinds. No arrests were made.

Portland, Me.—Dr. M. M. Bettman, a Portand dentist, is willing to take cats instead of coin in satisfaction of a bill for work on the teeth of Mrs. Elizabeth Allen. Mrs. Allen, with her husband, F. C. Allen, conducts a home for blooded felines. When Dr. Bettman's bill had been allowed to run beyond the limit of his patience, he secured an attachment on the 21 cats housed at the Allen home. Constable Wagner is now holding the cats until there can be a judicial determination of the controversy.

Chicago.—"Pop" Anson, idol of Chicago baseball fans for a generation, has lost all of the $300,000 he is reputed to have when he retired from the game in 1898, after having managed and captained Chicago National Leaguers for 22 years, leading them to six pennants and winding up with a trip around the globe. A mortgage on his home, or rather his wife's home, was foreclosed by the Hibernian Banking Association in default of notes aggregating $6800. Anson is said to have lost about $80,000 in his billiard ball venture that ended three years ago.

Rheumatism

Is A Constitutional Disease.

It manifests itself in local aches and pains,—inflamed joints and stiff muscles,—but it cannot be cured by local applications.

It requires constitutional treatment, and the best is a course of the great blood purifying and tonic medicine

Hood's Sarsaparilla

which corrects the acid condition of the blood and builds up the system.

Get it today in usual liquid form or chocolated tablets called **Sarsatabs.**

RAM'S HORN BLASTS.

Warning Notes Calling the Wicked to Repentance.

If everybody knew how little we put in the basket some of us would make less noise in church.

One of the times when patience needs to have her perfect work is when the waiter sticks his thumb into the soup.

Jesus said, "Let your light so shine," long before He said, "Go preach."

The soldier's marching order is as much for his feet as for his head.

Every bird that flies ought to teach us that it is still safe to trust God.

There is not a line in the Bible that speaks of God in the past tense. He always is.

The man in the Jericho road still needs some very energetic Good Samaritan help.

The Lord expects the man who has a mustard seed grain of faith to move something with it.

The right kind of love to God will express itself in the right kind of behavior toward men.

The man who has religion right should first put on the whole armor, and then put on his war paint.

It is so much easier to say a loud "amen" at a big dinner than it is to go out in the hot sun and pull weeds.

What a heartless thing it is not to put forth a finger to help the man who is trying to crawl up out of the mud.

It begins to look as if the lion would soon eat straw like an ox, and then lick his chops and whine for strawberries and cream.

The love that turns its pocket wrong side out in saying amen to the prayer it makes is the kind that never fails, whether it makes any noise in church or not.

A HUMBLE HELPER.

The tea man is a person who drives about certain coutnry roads in Ireland and persuades people to buy his wares. In "Irish Ways" Miss Jane Barlow tells a very pretty story of one of these travelers who sought shelter one stormy day in a neat cabin by the wayside. By chance he found there another visitor, a very poor, old Irish-speaking neighbor, who, infirm and half-blind, saw beclouded days, "livin' under the sister-in-law that wasn't wishful to have her at all." On this wet day, however, great good luck was to befall her.

"For what does the tea man do," says his hostess, "but takes a half-pound parcel out of his pack, and gives it to her a present. Aye, bedad, did he, and wrote down the price of it against himself in his little book, the way he wouldn't be robbin' his employers.

"And after that, says he to me, 'would the ould woman be able to get herself the sugar to be drinkin' wid it.'

"And says I to him, 'Well, now, me lad, tellin' you the truth, she would not.'

"So with that he takes out fourpence, and gives it to her to buy the bit of sugar.

"And then the crathur went down on her two knees in the middle of this floor, and said to Almighty God that the man was never to want for the price of what he had given her to the last day of his life. And the tea man was in stitches of laughin' that she could be makin' such talk over a grain of tea and sugar.

"But sure 'twas no laughin' matter to ould Molly, that does often be lyin' sick, and when they bring her the bowl of pitaties, ne'er a hand she'll put out to it. Dear—oh, the crathur's to be pitied.

"But there's a good few of the young girls doin' the sprigin,"—white muslin embroidery, a common cottage industry—"that a lady takes and sells for them off away somewheres. So when they're paid their money for it they do be gettin' ould Molley her bits of tea and sugar, and snuff. 'Deed, they're expecting news of a parcel of their work every day the now."

The Hat.

The modern hat can be traced back to the petasurs worn by the ancient Romans when on a journey, and hats with brims were also used by the earlier Greeks. It was not until after the Roman conquest that the use of hats began in England. A "hatte of biever," about the middle of the twelfth century, was worn by one of the nobles of the land. Fraissort describes hats and plumes which were worn at Edward's court in 1340, when the Garter order was instituted. The merchant in Chaucer's "Canterbury Tales" had on his head a Flaunderish beaver hat, and from that period onward there is frequent mention of "felt hattes."

They Had Them All.

It is the custom to think American department stores are about as near universal market places as any in the world, but the story Mrs. Pankhurst told while in New York, according to a writer in the Washington Star, shows that they do pretty well in London.

At one of the shops there, "universal providers" they call themselves, a lady once asked a shop assistant where the Brussels counter was.

"Carpets, sprouts or point lace?" inquired the assistant.

TRIALS *of the* NEEDEMS

WANT TO GIVE THEM TO A BEGGAR HUH? DO YOU WANT TO MAKE A BEGGAR OF ME BY GIVING EVERYTHING AWAY?

Force of Habit.

"Seeing that you divorced him, would it not be more proper to refer to him as your former husband rather than as your late husband?"

"I suppose it would, but I got so used to having to refer to him as my late husband while we were married that I don't seem to be able to break myself of the habit."—Chicago Record-Herald.

A merchant advertises because he wants your trade. He will make it worth your while to patronize him.

If the world's longest seven rivers were placed end to end they would lack but 500 miles of encircling it.

A Successful Disguise.

It is safe to say that nobody but an Irishman could be the hero of the following story. Mr. Murphy, says a writer in the Brooklyn Citizen, was inquiring of his friend, Mr. Doolan, how his wife was feeling, after the excitement of the recent wedding of their daughter. "She's well enough," replied the other, "excepting that she's grieving over a pair of illigant new kid gloves that got lost on her that evening.

"She's feeling bad about thim, but, I've advertised in the paper, and I'm thinking she'll get thim back again befoor long. They cost Mrs. Doolan two dollars and forty-five cints!"

"Ain't you afraid whoever got thim will be slow to answer the advertisement?" inquired Mr. Murphy.

"It's meself that knew how to fix that," returned Mr. Doolan. "I advertised thim illigant gloves was an owld pair, burrsting away at the seams and wurrth nobody's keeping!"

Sufficient.

The attractive young lady who had written "urgent" on her card was shown into the consulting room of Sir Choppham Fyne, head of the famous surgical hospital in Splintshire, England.

"And what is the matter with you?" said the great man.

"I wish," she answered, "to become a nurse in this institution."

The surgeon tapped a thoughtful tooth with his lancet. "First one question: Have you had any previous experience?"

She dazzled him with a reassuring smile.

"Experience?" she cried. "I should just think so. Two of my brothers play foot-ball, another has tried to cross the channel in an aeroplane of his own make, mother is a suffragette and father keeps a motor car."

THE KEYSTONE TO HEALTH IS HOSTETTER'S STOMACH BITTERS

The fact that **Hostetter's Stomach Bitters** has helped thousands of sickly people back to health during the past **56 years** should convince you that it is the medicine you need for **Indigestion and Stomach Ills.**

Japanese Test of Madness.

On Monday at the Tokio Appeal Court, before Judge Miyamoto, a farmer named Gisei Haseba, 26 years old, convicted of murdering his parents-in-law and severely injuring his wife at Osato-gori, Saitama prefecture, in 1908, appealed from the judgment of the Urama local court, where he was sentenced to penal servitude for life.

Since April last year, during the public trial of the accused, he has not uttered a single word, the Japan Advocate says. This attitude led the judge and the public prosecutor to conclude that he feigned madness as a last resort, hoping to get released. He was medically examined by Dr. Kure and Dr. Miyake, and in this examination Dr. Miyake adopted a singular method.

There is a belief that the blood of a venomous snake is soluble with that of an ordinary man, but not with that of a madman. The doctor appied this principle to the examination of the suspected lunatic, and sure enough the blood of a venomous snake did not dissolve in the blood of the accused. Thus the doctor concluded that he was really mad.

The other doctor also gave evidence about the lunacy of the defendant. The judge ordered that the trial should be postponed until the accused was recovered from his abnormal condition.

Those Old, Old Questions.

"Paw, a man says 'I lie.' If he lies he tells the truth, and if he tells the truth he lies, doesn't he?"

(With a groan.) "My boy, that was an old gag in the days of Socrates. You'll be asking me next who wrote 'The Beautiful Snow,' or whether it's true that the consumer pays the tax!"—Chicago Tribune.

A Hair Dressing

If you wish a high-class hair dressing, we are sure Ayer's Hair Vigor, new improved formula, will greatly please you. It keeps the hair soft and smooth, makes it look rich and luxuriant, prevents splitting at the ends. And it keeps the scalp free from dandruff.

Does not change the color of the hair.

Ayer's

Formula with each bottle
Show it to your doctor
Ask him about it, then do as he says

At the same time the new Ayer's Hair Vigor is a strong hair tonic, promoting the growth of the hair, keeping all the tissues of the hair and scalp in a healthy condition. The hair stops falling, dandruff disappears. A splendid dressing.

—Made by the J. C. Ayer Co., Lowell, Mass.—

OIL BOOM NOW ON

Development of Marvelous Wealth of this Section only Just Begun—Many Wells Soon Working

Many of our readers are interested in knowing just what the real conditions are in the new oil fields. We quote herewith an entire column from the Los Gatos Mail of last week. Being well acquainted with A. B. Smith, the editor, we do not hesitate in accepting his statements.

The Mail is more than pleased to be able to verify its faith in the marvelous wealth of the Los Gatos oil field, and to substantiate its confidence in that indefatigable and enterprising oil expert, Mr. Thomas A. Piper. The Mail a few years ago was criticized so vividly, and accused of aiding and abetting a very doubtful enterprise, and the big daily newspapers of San Jose, which are now among the most enthusiasiic over the success of the venture, looked upon the development work there with a coldness of an Arctic iceberg.

However, there was one spirit which temporary failure could not quench, one man whose faith in a great oil industry only awaiting development could not be clouded by one or several misfortunes, and that was Thomas A. Piper; and now he is about to reap a rich reward, and will no doubt come out of this venture a millionaire through the legitimate development of the district.

The uses to which crude oil is being put is steadily increasing, and makes the demand for it more than keep up with increased production; hence the opening of this new field, instead of decreasing the value of oil through overproduction, will add to its usefulness in many directions and increase the demand for this commodity.

The Mail had the pleasure Tuesday afternoon of visiting the new well on the Main place on San Jose avenue, and had an interview with Mr. Piper concerning the development of this field. This well is already an assured success, and Mr. Piper informed us, is as good or better than any 100-bbl. well in the Coalinga district; we were informed that it would now develop 150 bbls. a day of high gravity oil from the sands through which it has already penetrated, but that within a day or two, upon the arrival of smaller casings, drilling would be continued into and through a much richer strata of oil sand which is already reached. The casings used so far are 12½-inch, and 10-inchc asings will be used through the lower strata.

Only those who have been permitted an inspection of the works at this well know of the ponderous machinery used in the drilling operations, and of the conveniences provided for every phase of the work compared with those of the earlier period.

The strike of oil in this well was made in the middle of the night two weeks ago, and the oil flooded the slump before the flow could be controlled, and there it now lies as an uncontrovertable proof of its identity and the success of the venture.

Mr. Piper is superintendent of all the development work in this district, and financially interested in every well that will be drilled by any of the several companies operating herein. This well o which we have been speaking is being drilled by the T. A. P. Oil Company, named in honor of Mr. Piper. Other companies in the field are the Suburban Oil Company of Oakland, and the Diamond Core Drill Company of New York.

Drilling at the Suburban Oil Company's well on the Lint place will be begun next week, or as soon as the machinery, which arrived at the Los Gatos depot yesterday, can be placed in position. Every preparation has been made here to carry the work at this well right on to a successful end; there are excellent bunk houses for the drilling crews, water lines completed, a big storage tank for water, electric lights installed, etc. The officers of this company are all men prominent of wealth and experience; the president is C. R. Downs, at the head of mammoth power plants in Northern California; the vice president, A. Lowe, is a prominent mining man; and the secretary, J. J. Crawford, is a geologist of statewide reputation, and whose favorable report on the Los Gatos field was accepted to the extent of interesting unlimited capital in the development of oil in this section; these officers, with C. J. Heeseman, a well known Oakland business man and capitalist, and a Mr. Brooks, of Portland, Oregon, comprise the Board of Directors; Mr. Spreckels, of San Francisco, is also financially interested in all field work here.

A third well has been commenced, on the Rasmussen place, and the construtions of the derrick is well under way. As soon as the 10-inch casing has been sunk in the first well, the drilling apparatus will be moved over to the new derrick and operations begun, while the pump will be put to work at the first well.

The Diamond Core Drill Company of New York has on the way two complete drilling outfits which upon arrival will be located at points in Union yet to be determined by Superintendent Piper. This will be but a matter of a few weeks at most, and will make five wells, which are only a beginning.

Delays have been occasioned on account of the inability of the companies to get machinery and supplies promptly, but on the whole comparatively rapid progress is being made.

Mr. Piper informed the Mail that fully half a million dollars would be spent upon the development of this field, and he has staked his reputation upon the favorable outcome; present indications all point to the most satisfactory results, and the benefits of these operations will be untold for Los Gatos and the entire Santa Clara county. Already many Los Gatos people have felt their influence in the way of team work, as the hauling of all the timbers, machinery, supplies, etc., has been given to our people; and hundreds of meals of operators have been eaten in Los Gatos. An immense industry has sprung up in which there is hope of a great increase of business along all lines, in which Los Gatos, owing to her proximity to the field of operations, cannot fail to benefit to a greater extent than any other part of our county.

Let us all get busy and boost this great enterprise whenever opportunity offers.

State Health Official Would Free Facts and Muzzle Dogs

Turn the facts loose and muzzle the dogs, says Dr. Martin Regensburger, President State Board of Health, in citing death certificates and newspaper reports to enforce the assertion that hydrophobia should be legislated out of California.

"Four death certificates," states Dr. Regensburger, "have been recently filed in Sacramento in which the cause of death given is hydrophobia: Newspaper reports of dogs and other animals going mad have formed a large part of our clipping-bureau returns for several months. There is much encouragement in the fact that the newspapers of the rabies-infected districts have not only reported the hydrophobia news extensively but have vigorously upheld local health boards in the enforcement of muzzling ordinances.

"The best way to squelch hydrophobia "scares" is to turn the facts loose and muzzle the dogs. People with good judgement do not feel secure in a community that is full of rumors of rabies and unmuzzled canines. Communities should also use the muzzling ordinance as a quarantine measure against adjacent rabies-infected territory. The fact that hydrophobia affects cats, cattle, horses, sheep, goats, swine, deer, and coyotes as well as dogs and men suggests the avenues by which rabies-infection may spread across inhabited and uninhabited areas.

"For the protection of their own families the owners of dogs should not only keep them muzzled but should also keep them off the streets. The danger is that a rabied dog from outside districts wil pass through a town at night and bite a lot of street roamers with no one being the wiser. In this case the dog that is tied up in the woodshed will continue to be a safe pet. Even with the best of muzzles the dog that has been fighting with a rabied animal becomes a serious menace to his child playfellows and to the people who have to feed and water him. The most dangerous feature of all is that an infected dog is sometimes capable of infecting people with rabies for a period of two weeks or over before showing any symptoms of the disease. Thus the child who scratches his hand on the animal's muzzle might be infected from the spittle and perhaps come down with the disease before the dog did.

"There are practically no cases where humans have been cured of hydrophobia after symptoms developed. But if taken in time the Pasteur treatment fails in only ½ of 1 of the cases. Free treatments are shipped by mail on telegraphic application to the U. S. Public Health and Marine Hospital, Washington, D. C. But the eradication of hydrophobia lies in legislation, and not in treatment of any kind. In England and other countries the disease has been stamped out by rigidly enforced dog-muzzling ordinances."

A Dreadful Wound

from a knife, gun, tin can, rusty nail, fireworks, or of any other nature, demands prompt treatment with Bucklen's Arnica Salve to prevent blood poison or gangrene. It's the quickest, surest healer for all such wounds as also for Burns, Boils, Sores, Skin Eruptions, Eczema, Chapped Hands, Corns or Piles. 25c. at all Druggists.

W. C. T. U. Entertained

The W. C. T. U. was entertained by Mrs. Righter on Wednesday of last week. The meeting was in the interest of Mercy, of which Mrs. Righter is Superintendent.

After the program, which was interesting, the hostess served refreshments of sandwiches, ice-cream and cake.

BEAR FLAG DAY ON TUESDAY

Native Sons Making Great Preparations For Admission Day 1910 Celebration

The sixty-fourth anniversary of the raising of the original Bear Flag at Sonoma will occur Tuesday, June 14th, and in honor of the event and as a preliminary gun for the coming celebration of Admission Day in San Francisco next September, the occasion will be celebrated as "Bear Flag Day" all over the State by the distribution of one hundred thousand tiny silk flags. These souvenirs have been sent to every Parlor of Native Sons and Daughters in California and the sum realized from their sale, at ten cents each, will be devoted to the big fund being raised by the Order for the entertainment of the hundreds of thousands of visitors expected in the Exposition City during the decennial festival.

The committees in charge are confident that the coming celebration will eclipse the Portola Carnival of last year in every particular, the intention being to decorate the city better than ever before, even at the time of the Knights Templar Conclave in 1904.

A Religious Training School

The Moody Bible Institute of Chicago is seeking to meet the demands of the different denominations for workers among the foreign-speaking peoples of our large cities. Its students now embrace 20 nationalities, and men and women can be sent out qualified to conduct gospel meetings in sixteen languages. As a matter of fact work is now being done by these students constantly among Yiddish, Swedish, Danish-Norweigan, Italian, and other foreign-speaking peoples in Chicago and its environs. In addition to this The Bible Institute Colportage Association, besides being a channel for the distribution of the Bible in foreign languages, publishes its own evangelical literature in several tongues. One of D. L. Moody's books is now published in six different languages. The interdenominational character of this work is kept to the front by a faculty composed of men and women trained in the Episcopal, Congregational, Baptist, Presbyterian, United Presbyterian, Methodist and Lutheran communions.

Students of both sexes are welcomed here from all over the country, and churches and institutions in need of helpers are constantly applying for their aid.

Veterans' Reunion

The Annual Reunion of the North Central California Veterans Association will be held at Congress Springs, Saturday, June 18th, 1910.

The officers for the ensuing year will be elected and a general good time enjoyed. Coffee will be provided free.

All old soldiers and their friends are cordially invited.

Don't forget the well-filled basket.

Marvelous Discoveries

mark the wonderful progress of the age. Air flights on heavy machines, telegrams without wires, terrible war inventions to kill men, and that wonder of wonders-Dr. King's New Discovery—to save life when threatened by coughs, colds, lagrippe, asthma, croup, bronchitis, hemorrhages, hay fever and whooping cough or lung trouble. For all bronchial affections it has no equal. It relieves instantly. Its the surest cure. James M. Black of Asheville, N. C., R. R. No. 4, writes it cured him of an obstinate cough after all other remedies failed. 50c. and $1.00. A trial bottle free. Guaranteed by all Druggists.

The Fruit Season
IS CLOSE AT HAND

The Farmers Union is ready to supply you with everything that's needed from the pails for picking to the jars for preserving.

We have a big stock of lye and sulphur, and fruit growers and driers will do well to get in touch with us before the season begins.

A complete stock of general merchandise is offered at the Farmers Union; whatever is needed in the home and about the farm can be bought here, and usually for less money than you'll have to pay at most places.

Our various lines embrace Provisions, Crockery, Teas and Coffees, Hardware, Farm and Garden Implements, etc.

Careful attention given to all mail orders. It will pay you to become a regular patron at "Santa Clara County's Greatest General Merchandise Store."

Write us for prices on anything you need.

If you have no definite church home you are cordially invited to worship with us and make this your church home. You will help us; let us help you. You will find our meetings Bright, Brief and Brotherly. A cordially invitation to all.
GEO. E. ATKINSON, Pastor

If you were Buying Eyes?

Would you buy the best or the cheapest?

You should follow the same rule in buying glasses.

The "Ladies' Home Journal" calls cheap glasses, "Ten Cents Worth of Trouble."

A few dollars spent for glasses **when they are first needed** often prevents results too terrible to even think about.

My motto:
Glasses, Right—Just, Right.

NOTICE —TO— TAXPAYERS

The law requires each and every person who owns any class of property to annually, during the months of March, April or May, file a statement with the Assessor or his deputy in the county where the property is located. You should give a statement of all property owned by you on the FIRST MONDAY IN MARCH AT 12 O'CLOCK M.

If you hold mortgages or trust deeds against others, send in mortgage statement early in March, so proper deductions can be made showing amount due on each mortgage or trust deed on the first Monday of March at 12 o'clock m.

Remember, if you fail to give in your assessment you fail to comply with the law and may cause yourself, the Assessor and Tax Collector much trouble, and very likely cause yourself expense.

Poll Tax is now due and payable at the Assessor's office or to a deputy. After the FIRST MONDAY IN JULY $1 will be added.

It is much more satisfactory to the Assessor, as well as to yourself, to have your assessment correct when you go to pay your taxes.

L. A. SPITZER, Assessor.

(4-30)

YOU DROPPED SOMETHING

Which reminds us:

If you will drop a postal card to us we will call for your subscription to this paper for the coming year.
